(As of September in 2017)

Ieyasu Tokugawa created the foundation of the iemoto system at Sunpu Castle in Shizuoka City through his contribution to the development of modern Go and was the first to enter the Nihon Ki-in's Hall of Fame. Go has now spread worldwide and become global. February is a time when the weather is pleasant, and Mount Fuji can be clearly seen. We would like people from all over the world to come. As there are many overseas visitors who like sightseeing and traveling, we have set aside a day for trips during the event period and are planning a sightseeing tour in Shizuoka Prefecture and Shizuoka City. Furthermore, we have divided the main event into two stages so that it will be easy for short-term visitors.
